

Teachers, Principals, Students, and Parents

Thank you for taking time to look over this material and to give your students a chance to participate in the 2nd annual Ohio High School Survivor Eco Challenge. This is a new type of event for high schools only, that we hope appeals to students less interested or able to participate in traditional high school sports, as well as students interested in issues of the "***bigger picture***", ***i.e. community involvement, environmental awareness, team building, school image***, and more.

Schools are a great proponent of the important ecological issues of our region, and this event makes a good dovetailing between the environment and the citizens/students living within it. ***An enlightened appreciation of our environment*** is sure to occur while training for and participating in the High School Survivor Eco Challenge.

The High School Survivor Teams will benefit by: the fun of participating in the team challenges, personal character growth, development of team working skills with fellow students, development of student responsibility skills through representing their school and community in a positive and creative manner.

Sponsors to date include: Cincinnati Recreation Commission, Cincinnati Sports Club, Morgan's Canoe & Outdoor Centers Inc. Hamilton County Parks and Recreation and assisted by the Flying Pig Marathon director, Don Connolly.

Again, thank you for taking the time to review this and I look forward to hearing from you soon.

Gary Morgan, director
